# Weston College Group

## Health and Safety Policy Statement

Weston College Group recognises that occupational health and safety is an integral part of its core business strategy. It believes in cost effective improvements in performance to enhance the environment for staff, students, tutors and visitors. The organisation commits to ensuring that its statutory obligations are discharged and that a process of continual review and improvement will be fostered within the organisation.

This policy applies to all operations within the Group. A copy will be held at each unit, and is to be used as a working document by personnel to manage health and safety at each unit in a manner commensurate with the responsibilities outlined below.

All staff are reminded that adherence to the requirements of this policy is a legal requirement, and that any failure to do so may invalidate the organisation's insurance cover or may render them individually liable to prosecution.

Weston College Group will develop and set objectives for safety performance and will strive to achieve these through the application of principles of risk assessment and risk management. The safety objectives will be publicised within the business and communicated to staff via the Extranet. The responsibilities of all managers and staff will be detailed within the policy as will standard operating procedures.

Weston College Group will provide adequate resources to ensure that the objectives of the policy and its safety arrangements are met. All levels of staff and managers will receive appropriate training to ensure they act competently.

Safety equipment and PPE will be provided where the risk assessment identifies the need for such and the organisation expects the equipment to be used.

Weston College Group recognises that the achievement of safety is a partnership between the organisation, representative bodies and the employees. The organisation states its objectives and aspirations within this policy and it expects the employees to match this with a commitment to work and conduct their activities in a safe manner. It is vital that the employees report safety defects and concerns to the Catalyst Director of Health and Safety to enable Weston College Group to meet its stated objectives.

Weston College Group will review and audit the effective management of and adherence to the policy and the safety arrangements. The College Governors and Senior Management Team will review reports on safety performance.

This document will be reviewed annually.

Signed 

Date: 20<sup>th</sup> February 2019

# Weston College Group

## Health and Safety Policy Responsibilities

This document sets out the responsibilities and arrangements for health and safety across the Weston College Group (hereafter referred to as the College).

### Governors

The College's governing body are responsible for:

- Ensuring sufficient resources are made available to ensure statutory compliance and achieve the College's health and safety objectives.
- Reviewing annually, and monitoring the implementation of the College's health and safety policy and arrangements.
- Identifying a Governor responsible for health and safety across the college and to sit on the College's health and safety committee.

### Principal and Chief Executive Officer

The Principal and Chief Executive Officer of the College has overall responsibility for health and safety on a day to day basis, this includes:

- Liaising with the College's governing body on health and safety matters as required.
- Bringing to the attention of the College's governing body any significant issue or challenge that might affect the Weston College Group, its employees or learners.
- Ensuring sufficient resources are made available to ensure statutory compliance and achieve the College's health and safety objectives.
- Promoting and maintaining a positive health and safety culture across the College and all its activities.
- Ensuring matters affecting health, safety and welfare are communicated effectively across the College.
- Ensuring the health and safety is a standing agenda item on all leadership board meetings.

### Deputy Principal

The College's Deputy Principal is responsible for:

- Deputising for the Principal and Chief Executive Officer in their absence.
- Ensuring that the College exercises its legal responsibilities and duty of care with the regard to all student activities whether they take place on or off the premises.

# Weston College Group

- Ensuring health and safety is a standing agenda item on all team/departmental meetings.
- Promoting and maintaining a positive health and safety culture.

## Catalyst Director of Health and Safety

The Catalyst Director of Health and Safety is responsible for:

- Providing strategic advice and direction on all aspects of health and safety across the Weston College Group.
- Provide competent health and safety advice.
- Chairing the College Health and Safety Committee and distribution of subsequent minutes.
- Investigating accidents, incidents and near misses.
- Statutory reporting under RIDDOR and to other organisations linked to the College's undertaking.
- Undertake periodic reviews of all documents contained within the College's Health and Safety Management System.
- Support managers to identify employees' health and safety training needs and provide health and safety training to employees and others who require it.
- Provide advice and guidance regarding the use of subcontractors undertaking projects on behalf of Weston College Group, including the monitoring of their performance.
- Ensuring that the implementation of the Health and Safety Policy is monitored.
- Ensuring competent persons or specialists are consulted as necessary, to advise on specialist Health and Safety matters.
- Maintaining a central list of approved work placement providers utilising the CRM recording database.
- Maintaining an electronic record of all risk assessments and material safety data sheets (MSDS).
- Undertake a programme of Health and Safety Audits and create action plans as required.
- Ensuring fire risk assessments and College emergency evacuation procedures are appropriate and where required regularly tested.
- Ensuring adequate first aid provision is in place across the College.
- Promoting and maintaining a positive health and safety culture.

# Weston College Group

## Facilities Manager

The Facilities Manager is responsible for:

- Ensuring compliance with all property related health and safety regulations and procedures.
- Ensuring third parties and contractors on site comply with the health and safety policies.
- Ensuring asbestos and legionella risk assessments are undertaken where required, the appropriate controls put in place and up to date registers maintained.
- Ensuring that any premises related defects and hazards are responded to in a timely manner.
- Ensure that all facilities contractors undertaking work on College premises are subject to periodic checks of competency.
- Ensure that an effective permit to work system is in place where required.
- Ensure employee health and safety training needs are identified and appropriate arrangements are made for training.

## Group & Assistant Directors

Group & Assistant Directors across the College are responsible for:

- Ensuring day-to-day management and implementation of the College's health and safety policies, procedures and arrangements.
- Ensuring the health and safety is a standing agenda item on all team/departmental meetings.
- Ensuring that risk assessments are undertaken for activities within their area of responsibility, appropriate controls are put in place and safe methods of working adopted.
- Identifying employees' training needs and ensuring all employees within their area of responsibility are provided with the necessary information, instruction, training and supervision.
- Ensuring that all accidents, incidents and near misses are reported, proportionate investigation is undertaken and the necessary steps taken to prevent reoccurrence.
- Promoting and maintaining a positive health and safety culture.
- Monitoring health and safety practices within their area of responsibility.
- Ensuring that PEEPs are completed for any learner or employee who require them.

# Weston College Group

## Heads of Faculty (HOFs) and Heads of Department (HODs)

Heads of Faculty and Heads of Departments are responsible for:

- Ensuring day-to-day management and implementation of the College's health and safety policies, procedures and arrangements.
- Ensuring the health and safety is a standing agenda item on all team/departmental meetings.
- Ensuring that risk assessments (e.g. faculty/department specific, DSE, nursing and expectant mothers, COSHH) are undertaken for activities within their area of responsibility, appropriate controls are put in place and safe methods of working adopted.
- Ensuring that written safe systems of work are in place and followed for all learning/workplace activities where appropriate.
- Identifying training needs and ensuring all persons within their area of responsibility are provided with the necessary information, instruction, training and supervision.
- Ensuring that all accidents, incidents and near misses are reported, proportionate investigation is undertaken and the necessary steps taken to prevent reoccurrence.
- Promoting and maintaining a positive health and safety culture.
- Monitoring health and safety practices within their area of responsibility.
- Where required, providing necessary personal protective equipment (PPE) ensuring it is maintained, stored and used correctly.
- Ensuring that all new learners/employees are given appropriate health and safety induction at the start of their course/employment.
- Ensuring that specialist equipment used to instruct learners/employees is maintained in accordance with legislative requirements and/or manufacturer's instructions as appropriate and records kept.
- Ensuring that PEEPs are completed for any learner or employee who require them.
- Ensuring that where required, workplace health and safety assessments are completed to a satisfactory standard prior to any learner undertaking work experience.

# Weston College Group

## Employees

Employees are responsible for:

- Ensuring that where required risk assessments are undertaken for activities within their area of responsibility, appropriate controls are put in place and safe methods of working adopted.
- Ensuring that all accidents, incidents and near misses are reported at the earliest opportunity.
- Taking reasonable care of the health and safety of themselves and others (including colleagues, learners and visitors) who may be affected by their acts or omissions.
- Familiarising themselves and following all College's health and safety policies.
- Promoting and maintaining a positive health and safety culture.
- Ensuring that any specialist equipment is maintained in accordance with legislative requirements and/or manufacturer's instructions as appropriate and records kept.
- Ensuring that written safe systems of work are in place and followed for all learning/work related activities where appropriate.

## Employee and Trade Union Representatives

Employee and Trade Union Representatives can:

- Attend meetings of the College's health and safety committee.
- Investigate potential hazards and dangerous occurrences at the workplace.
- Investigate complaints by any employee s/he represents relating to that employee's health, safety or welfare at work and make representations to the employer on matters arising.
- Make representations to the employer on general matters affecting the health, safety or welfare at work of the employees at the workplace.
- Carry out workplace inspections.
- Represent the employees s/he was appointed to represent in consultations at the workplace with inspectors of the Health and Safety Executive and of any other enforcing authority.

# Weston College Group

## Health and Safety Policy Arrangements

This policy covers the general arrangements in place for the management of health and safety at Weston College Group (hereafter referred to as the College).

This policy is supported by a number of additional documents including procedures, risk assessments, safe systems of work, templates and checklists. These can be found on SharePoint.

This policy is reviewed from time to time as required to reflect changes in working practice, legislation or similar. As a minimum this policy will be reviewed annually.

### Systems and Procedures

The College will continue to develop, maintain and monitor suitable and appropriate systems and procedures to ensure that there is compliance with legislative requirements.

These systems and procedures enable hazards to be identified and control measures put in place to reduce the risks from those hazards to an appropriate and acceptable level.

All systems and procedures are incorporated in the Health and Safety section on the College SharePoint platform.

### College Safety Facilities

The Health and Safety and Sites and Estates Departments are the focal point for the College's commitment to health and safety. Copies of all relevant documentation and guidance on legislative compliance are held, either in hard copy or electronically, up-dated and added to as appropriate.

Membership of appropriate organisations is maintained to enable the College to participate in meetings, discussions and conferences with similar businesses and operations with the intention of ensuring that the best ideas, systems and procedures are implemented to the benefit of the College, its employees, its learners and others who may be affected by its operations.

### Communication

The College will communicate information relating to health and safety matters to its staff through a number of channels including:

- Regular meetings of the Health and Safety Committee
- A suite of supporting safety policies and procedures
- Heads of Department and Faculty meetings
- Health and safety signage throughout each campus

# Weston College Group

- The Health and Safety Law 'what you should know' poster is displayed in prominent positions throughout each campus
- Face to face meetings, including campus "drop-in" sessions
- Email

## Health and Safety Committee

Weston College has an established Health and Safety Committee with representation from Faculties, Facilities Department, Union representative bodies, College management and learners.

The Committee will seek to promote and secure the health, safety and welfare of all persons having access to college premises, through the co-operation of all employees and the publication of Health and Safety policies, practices and procedures. The Committee will meet on a bi-monthly basis, with a quorum for decision-making being 50% of membership, ex officio members not included.

The work of the Committee must be seen as supplementing the arrangements introduced by the College for ensuring the continued wellbeing of all. Where necessary, persons with specialist knowledge or skills may be co-opted to the Committee in an ex-officio capacity.

The main functions of the committee are to:

- Advise on the development of the Health and Safety policies, procedures and safe working practices contained therein.
- Monitor and review all reportable incidents (RIDDOR) and all incident investigation reports.
- Review incident statistics and trends in order that reports can be made on unsafe conditions and practices, together with recommendations for corrective action.
- Consider health and safety audit reports which Health and Safety Representatives may wish to submit.
- Monitor inspections of workplaces in the form of health and safety tours.
- Monitor the arrangements for Learner Work Place Assessments.
- Consider reports and factual information provided by inspectors of the enforcing authority appointed under the Health and Safety at Work Act 1974.
- Submit Committee minutes to other functional committees within the risk management structure as required.
- Produce and submit an annual report.

These terms of reference will be reviewed at least every two years.

## Risk Assessments

The Management of Health and Safety at Work Regulations and other Regulations require that risk assessments are carried out by employers and that the significant findings from the assessments are brought to the attention of those at risk.

Within the College environment this includes the risks to employees, students and others with whom the college has contact during the course of its business activities.

Risk Assessments will be required for those activities that are not considered 'normal' College events or where significant harm could occur.

Normal College events are covered by 'generic' risk assessments recorded electronically on SharePoint.

Where activities/tasks are not the subject of an existing risk assessment and could lead to significant harm occurring, a specific activity/task risk assessment will be required to be undertaken.

An electronic form is available on SharePoint that can be completed and recorded.

Where existing controls are not adequate, additional controls will need to be identified and recorded on an action plan.

Advice and assistance on completing risk assessments can be sought from the College Health and Safety Department.

Examples of specific risk assessments include:

- New and Expectant Mothers (including learners)
- Residential Accommodation (including under 18's)
- People with specific disabilities
- External Visits and trips abroad
- Manual Handling
- Specific items of work equipment
- For one off activities like shows, open days etc.
- Display Screen Equipment (DSE)
- Control of Substances Hazardous to Health (CoSHH)
- Workshop machinery and equipment

# Weston College Group

## Work Equipment

The College will ensure that all tools and equipment provided for use at work will comply with the requirements of the Provision and Use of Work Equipment Regulations (PUWER). This includes ensuring:

- That all users of products and articles supplied or hired for use at work are provided with relevant health and safety information.
- All work equipment hired or purchased for use by our employees or students is suitable for the purpose for which it is to be used and that employees have received appropriate information, instruction and training.
- Reasonable steps are taken to ensure that plant and equipment used or operated by sub-contractors who are under the control of the College, is used in compliance with current legislation and good practice.
- That the necessary arrangements are in place so that all work equipment is properly maintained and that records of servicing, inspection, calibration and statutory tests/examinations are completed and available. Examples of records required include:
  - Plant certification and inspections
  - Portable electrical appliance testing and fixed electrical inspections
  - Statutory examination/test of lifting equipment and routine inspections

Employees are responsible for ensuring that any defects likely to affect personal safety or health are reported immediately and are required to carry out a visual inspection of equipment before use to ascertain that it is in good repair and appropriate for the task.

Portable appliance testing (PAT) will be conducted by competent persons. Inspections and tests will be undertaken at intervals in accordance with the guidance.

## Information, Instruction and Training

Suitable information, instruction and training will always be provided to employees and such other persons as necessary on health and safety related matters, as identified during risk assessment, on the introduction of new technology, or a change in working methods, or as a result of knowledge gained from premises and site inspection.

Safety training requirements for both managers and employees will be identified, recorded and provided to all employees as necessary.

Head of Departments/Faculties are responsible for ensuring identified training needs are met. This may be from internal means, by use of external training providers or eLearning as appropriate.

Advice can be sought from the Health and Safety team on appropriate courses.

# Weston College Group

## Safeguarding

In accordance with applicable legislation and its own Safeguarding policy, the College takes a preventative approach to protecting young people and adults from risk of potential harm, damage, radicalisation or being drawn into terrorism; take all appropriate action to address concerns about the welfare of young people and vulnerable adults; work to agreed local policies and procedures in full partnership with other local agencies; plan, implement, monitor and review policies and procedures to ensure that the maximum is done to provide a safe environment for young people and adults at risk in the College; take all reasonable measures to ensure that risks of harm to young people and adults at risk welfare is minimised.

Any student in danger of radicalisation or demonstrating extremist tendencies is deemed to be vulnerable and appropriate support under the PREVENT strategy or through CHANNEL will be sought.

The College will keep its policy and procedures on children and adults at risk under review to take account of any new Government legislation, regulations or best practice documents to ensure staff are kept fully up to date with their responsibilities and duties with regard to the safety and well-being of vulnerable parties.

## Accidents and Incident Reporting

All accidents, incidents or near misses, however trivial they may appear, must be recorded on the accident/incident form (IR1) and reported to the Health and Safety Department within 3 working days.

When College employees/learners are away from any College Campus/site any specific recording/reporting requirements for that site must also be adhered to.

The College will maintain and hold all documentation for accidents, dangerous occurrences and notifiable diseases and conditions.

Copies of all notifications made on behalf of the College will be kept for record purposes.

The Health and Safety team has the responsibility for the Reporting of Injuries, Diseases and Dangerous Occurrences Regulations (RIDDOR) on behalf of the College.

A proportionate investigation into all accidents involving staff, or learners, should be undertaken by a line manager or Head of Faculty with support from the Health and Safety Department if required.

All accidents will be considered health and safety 'failures' with lessons to be learned from them. Additional control measures will be identified and introduced as necessary to prevent the recurrence.

Where applicable, recommendations will be forwarded to the appropriate line manager/Head of Faculty to ensure that risk assessments are reviewed and control measures improved as required.

# Weston College Group

## Fire Safety Arrangements

Fire alarm and detection systems and appropriate fire-fighting equipment is maintained in serviceable condition, tested at appropriate intervals and certificated in accordance with legislative requirements.

Fire Evacuation procedures are maintained, bespoke to each college building, monitored and evaluated at appropriate intervals for effectiveness, practiced evacuation drills take place each term for each college building/location.

Fire Risk Assessments in compliance with the Regulatory Reform (Fire Safety) Order 2005 are completed and reviewed for all premises and are centrally held on the extranet as follows:

- Knightstone Campus
- Loxton Campus
- University Centre Weston – The Winter Gardens
- Construction Training Centre
- The 'Bay' Hotel
- Skills Zone
- South West Skills Campus (SWSC)
  - o Building Automotive and Civil Engineering (BACE)
  - o Motor Vehicles Workshop (MVWS)
  - o Partnership Building
  - o Eco House
  - o Lord Baker Innovation Centre (AEC)
  - o Engineering
- Conference and Events Centre

## First-Aid

To comply with the Health and Safety (First-Aid) Regulations, all College sites, premises and vehicles will be supplied with adequate first-aid facilities appropriate to location in which they are placed.

Where a First Aid Needs Assessment has identified that a designated first aid room is appropriate, one will be located in a suitable place within the site.

Facilities staff are trained to be the first responder for first aid incidents and are trained to 'First Aid at Work' standards.

# Weston College Group

In the event that an incident requires a first aid attendance contact must be made via the appropriate Customer Information Service (CIS) on the following numbers by using the emergency phone.

- Knightstone Campus Tel: (01934 41)1888
- Loxton Campus Tel: (01934 41)2888
- SWS Campus Tel: (01934 41)3888
- Winter Gardens Tel: (01934 41)4888

The numbers quoted above will be prioritised by CIS staff, this to ensure calls obtain an immediate response.

Automated External Defibrillators (AED's) can also be accessed at the above locations.

Unless immediately life threatening requests for an ambulance must be made via CIS to assist with locating the casualty on arrival. Exact details of the incident slip, trip fall, faint, bleeding cut etc. must be given to CIS.

When a College First Aider decides that a casualty should be taken either to hospital or home, they must be transported:

- By ambulance when the casualty's condition is or is thought to be serious. When a casualty is transported by ambulance, College First Aiders or other staff are not required to accompany them.
- By College transport when available and when the casualty's condition is not serious. When transported by College transport casualties must be accompanied by a College First Aider as well as by the driver.
- By taxi when no College transport is available and when the casualty's condition is not serious. When transported by taxi casualties must be accompanied by a College First Aider.
- The First Aider will determine if the casualty requires a Taxi to return to College/home address if so arrangements must be made for the cost to be debited to Weston College.
- Following registration at the hospital with medical staff, the First Aider may determine if they need to remain with the injured person or can return to previous duties, taking account of the casualty's trauma, personal circumstances etc.

## Health Surveillance

The College will provide occupational health surveillance at work where as a result of risk assessment it is shown to be required i.e. the work remains hazardous and carries significant risk, even with certain control measures in place.

# Weston College Group

The College will:

- Consult with employees over the proposed arrangements for occupational health surveillance and for the need for affected employees to participate in these arrangements.
- Inform affected employees of the health risks and of the health surveillance procedure.
- Monitor any trends in exposure to all relevant employees by the annual completion of a confidential health and safety questionnaire.
- Ensure that the person(s) carrying out the health surveillance procedure are competent to undertake the task.
- Ensure that the results of the health surveillance are suitably recorded and that the records are kept readily available for inspection by any person who has a right to see them.
- Suitably action any recommendations made as result of health surveillance and if necessary review the associated risk assessment.
- Treat an individual's health surveillance records as confidential information.
- Ensure that health surveillance records are retained for statutory retention periods.

## Display Screen Equipment

Weston College will comply with the Health and Safety (Display Screen Equipment) Regulations and where anyone is identified as a Display Screen User, Line Managers/Head of Faculties will ensure that those persons undertake a workstation assessment.

These will be carried out on commencement of employment and on an ongoing basis should circumstances require, such as the installation of new equipment or reorganisation of the workplace.

This assessment form can be accessed via SharePoint.

Users of DSE will be given appropriate training to minimise any risks identified in the risk assessment and provided with guidance on correct use of the equipment and advised of the reporting procedure should problems develop.

Where the assessment identifies that equipment or furniture, such as keyboards, computer mouse, chairs etc. would reduce the risk of harm coming to the DSE user these will be provided by the College.

All employees identified as DSE users are entitled to eye tests on request in accordance with the Display Screen Equipment Regulations.

# Weston College Group

The College will make the following provision for DSE users:

- Vision screening carried out by suitably qualified professionals either in College premises or at another agreed location.
- If problems of visual acuity at screen distance are detected, then referral to a designated optician will be authorised.
- Corrective appliances where deemed necessary.

Any health symptoms or concerns believed to be attributed to the use of display screen equipment should be reported to line managers who should seek advice in the first instance from the Health and Safety Department who can also advise on current amounts that can be claimed for eye tests and corrective appliances.

Payments made can be claimed via the Petty Cash claim form on SharePoint.

## Smoking

In line with the Health Act 2006, Weston College will fully comply with the requirements of the legislation in that smoking is prohibited in all College premises with the exception of those designated smoking areas/shelters at Knightstone Campus, Loxton Campus and South West Skills Campus.

The smoking ban applies to all staff, learners, contractors and visitors.

Smoke-free areas include:

- All buildings owned by or leased to the College.
- All grounds and areas immediately outside any entry or exit doors (within 6m).
- All College owned vehicles or vehicles hired to the College for the transport of goods and or personnel whether single or multiple occupancy.

This smoking ban has been extended to include electronic cigarettes, and similar electronic devices, as these give the impression of smoking within buildings.

Employees who wish to smoke, including the use of e-cigarettes during working hours must do so within their own designated break or rest periods.

The taking of unauthorised breaks may result in disciplinary action.

## Lone Working

The College seeks to avoid lone working, however recognises that on occasions employees may be required to do so during the course of their work.

# Weston College Group

Lone working will only be allowed after a risk assessment has been carried out to assess the nature of the work, the workplace and the specific risks to the lone worker.

Where it is not possible for the work to be done safely by one person, arrangements will be made to provide back up and assistance.

All employees who lone work will be given instruction and training on recognising the risks, the precautions to be taken and the procedure for requesting assistance.

## Control of Substances Hazardous to Health (COSHH)

In order to comply with the Control of Substances Hazardous to Health Regulations the College will obtain information on any substance or materials that may be hazardous, usually in the form of Material Safety Data Sheets (MSDS) from the manufacturer or supplier in the form of material safety data sheets.

Written CoSHH assessments will be undertaken for any work with substances where a significant risk is identified using the information provided from safety data sheets.

The College will look to eliminate exposure to hazardous substances but where this is not possible will look at the following hierarchy of control measures to reduce the risk to as low as reasonably possible:

- **Substitute:** using another substance which presents a lower risk i.e. non-acetone based nail varnish.
- **Isolate:** enclose the process to reduce the potential for contact with the substance i.e. fume cupboards.
- **Engineering controls:** control the exposure of the substance at source i.e. local exhaust ventilation (LEV).
- **Training and administration:** those likely to come into contact with the substance have appropriate training and safe systems of work are produced and followed.
- **PPE:** Appropriate PPE is provided i.e. gloves, respiratory protective equipment (RPE).

Any necessary work with new materials or substances rated as hazardous will not commence until the necessary safety data sheet has been obtained, or the material has been analysed and an assessment made of the risks involved in the operation.

Assessments will be reviewed on a regular basis or whenever it is suspected that they may no longer be valid.

# Weston College Group

## Personal Protective Equipment (PPE)

PPE is provided as a final line of defence against potential risk and used in conjunction with more collective protective arrangements according to the tasks being completed.

An assessment will be carried out by the Department Manager in consultation with the Health and Safety Department, if required, to ensure that any PPE provided is suitable and provides an adequate level of protection against the hazard identified.

It is the responsibility of the appropriate manager to ensure that the site rules regarding the use of PPE are enforced and where necessary to take disciplinary action to ensure compliance.

Where PPE has been identified as being appropriate for the work being carried out managers will ensure that employees are given sufficient training for its use.

This will include the selection, use and maintenance of personal protective clothing and equipment where it is required.

Managers will ensure that suitable arrangements are provided for the storage and maintenance of PPE.

## Legionella

As the Duty Holder the College is responsible for ensuring that a suitable and sufficient risk assessment is carried out to assess the risk of exposure to legionella bacteria from activities and water systems on College premises.

Honeyfield Property Services, contracted to carry out planned and reactive maintenance works throughout the College will, in consultation with the Facilities Manager, carry out the monitoring regimes i.e. temperature monitoring, to reduce the risk of bacterial growth in the College water systems.

## Asbestos

The College recognises its duties under the Control of Asbestos Regulations to prevent, so far as is reasonably practicable, exposure to asbestos.

The College recognises its responsibilities as a duty holder and, through the Facilities Department, will:

- Identify premises that may contain Asbestos.
- Maintain an Asbestos Register.
- Ensure Asbestos surveys are carried out by a competent surveyor on all properties within their control built before 2000.
- Develop and implement Asbestos management plans based on any survey findings.

# Weston College Group

- Provide information to any person requiring it (e.g. contractors) who might come into contact with Asbestos.
- Should there be any doubt as to whether Asbestos is present, it **MUST** always be presumed Asbestos is present.

## Manual Handling

Manual handling operations will be avoided wherever practicable by automating or mechanising handling wherever possible.

Plant, tools, materials and equipment should always be delivered as close as possible to work areas to avoid unnecessary handling.

Where manual handling cannot be avoided and there is likely to be a significant risk or injury, specific assessments will be made by the appropriate manager, having consulted with the health and safety department where required, and procedures developed to eliminate or minimise the risks.

The capability of employees will be taken into consideration and where required further information, instruction, training and supervision will be provided to ensure competence.

## Working at Height

Working at height is to be avoided wherever possible. Where this is not possible or practicable, working at height is to be properly planned, organised and supervised.

Where the use of a stepladder, or ladder, is unavoidable e.g. putting a box on a shelf, appropriate steps will be provided. Ladders should only be used for light work and for a short duration (maximum in one position of 30 minutes) and only Class 1 (pre 2018 whilst still in good condition) or Class EN131 Professional ladders will be used.

Ladders will be recorded on a register and will be subject to periodic inspection as determined by the Facilities Manager.

Where work at height tasks fall outside the definition of light work and short duration, Honeyfield Property Services, contracted to carry out planned and reactive maintenance works throughout the College will be tasked to carry out the work having provided appropriate suitable and sufficient risk assessments.

## Noise

There are a number of different areas within the College environment in which employees and students might be working, where exposure to noise might need to be considered:

- Performance spaces
- Plant rooms
- Construction environments

# Weston College Group

- Workshops

When operating or working near plant, machinery and other noise sources, employees are required to:

- Keep machinery covers closed.
- Wear suitable hearing protection.

Information and instructions for safeguarding hearing will be given to employees as a toolbox talk.

Where permanent noise hazards are identified, 'Hearing Protection Zones' will be designated and the use of appropriate control and protection measures enforced.

Where there are concerns that noise within areas of the College may reach the noise action (exposure) levels, the health and safety department are to be contacted and an assessment of noise carried out.

Where noise cannot be reduced at source, appropriate hearing protection will be provided by the College.

## Food Safety

The College accepts its legal duty to comply with the provisions of The Food Safety Act 1990, and all other subsequent, or relevant, legislation made under the Act.

The College has a number of food outlets including:

- The Grove Training Kitchen and Restaurant
- Costa Coffee
- Starbucks
- The Bistro
- Lasseter's Restaurant (Winter Gardens)
- Florentine Restaurant (Winter Gardens)

The Grove Training Kitchen and Restaurant is located within the Knightstone Campus and offers a realistic working environment for our Catering and Hospitality students, the remaining outlets are managed on behalf of the College by external caterers.

The College is committed to identifying potential food safety hazards and will implement any control measures necessary to reduce the risks to customers of our food outlets.

Each outlet will have a comprehensive risk based quality management procedure based on the principles of Hazard Analysis and Critical Control Points (HACCP) to ensure all practicable due diligence and the maintenance of our high standards.

These procedures include procurement, delivery, storage, preparation and service.

# Weston College Group

In order to achieve this, the following conditions must be observed:

- All food will be produced under hygienic conditions that do not expose the food or food contact surfaces to risk of contamination.
- Food contact surfaces and equipment will be kept clean and sanitised.

All staff and learners must maintain a high standard of personal cleanliness and wear the correct protective clothing supplied at all times during their hours of work.

All food will be stored and processed under safe conditions and within the specified range of temperature according to statutory requirements and recommended approved guidance

Staff or learners who are aware they are suffering from any infection or condition likely to cause food poisoning either directly or indirectly must report to their Line Manager or Tutor immediately

Staff and learners involved in preparation and service of food must observe all College hygiene procedures.

## Work Placements and Apprenticeships

Workplace health and safety assessments are a process of assessing and monitoring the health and safety of College students and ensuring workplaces comply fully with legislation relating to health and safety and the protection of children and vulnerable adults.

A workplace health and safety assessment must be carried out prior to any student commencing their work placement/apprenticeship, ensuring that the environment complies with all relevant safety regulations.

A visit must be undertaken to robustly assess the standards of health and safety in the workplace prior to the students starting their learning in the workplace. The workplace health and safety assessor will make an informed professional judgement on the safety and suitability of the workplace.

No student under 18, or vulnerable adult will undertake a work placement/apprenticeship until a parental/carer consent form has been signed and received by the College.

Sufficient monitoring visits will be carried out by the assessor to observe students in the workplace and to check that the work environment is in accordance with the agreed standards. The assessor will also ensure that there are sufficient on-going arrangements in place for providing information, instruction and guidance for the student for securing their health and safety welfare.

A core part of the health and safety assessment is the identification of any actions required to ensure full compliance with legislation and thereby minimise the risk to College students.

## Subcontractor Procurement and Competence

The College will endeavour to undertake reasonable checks to ensure that those employed on our behalf are suitable, insured, knowledgeable and experienced in the tasks that they are going to undertake.

Competence will be defined by those sub-contractors who hold a current Safety Schemes in Procurement (SSIP) accreditation, e.g. CHAS, SMAS, Exor, Safe Contractor or similar equal accreditations. A certificate of current accreditation will be requested prior to contracts and work commencing.

For those sub-contractors engaged by the College outside the SSIPS scheme, we will vet, evaluate and assess them for carrying out work to ensure they are competent.

The College's procedure for the evaluation of sub-contractors is as follows:

- The evaluation will take place in the form of a pre-qualification health and safety questionnaire sent to each sub-contractor requesting documents and evidence of competence in order to be included on to the College's database of "approved" sub-contractors.
- Once questionnaires have been sent, returned, assessed and approved by they may be deemed "Approved" and included on the College's database. In some cases further enquiries may be made by Directors in order to substantiate information provided in the questionnaires.
- Enquiries are to include issues such as relevant health and safety training, CSCS certification, provision and evaluation of statutory documentation. This includes risk assessments and safety method statements, which must be provided for review prior to any order being confirmed, so that the College may be assured that any works will be undertaken safely and without risk to health and safety and in compliance with legislation.
- The sub-contractor's competence and performance will be a condition of any order or contract being placed.

This assessment of contractors includes, but isn't limited to those persons engaged in:

- Planned and reactive facilities maintenance.
- Equipment maintenance and servicing activities.
- The training of our employees.
- The provision of catering outlets.
