## A Levels

# INDUSTRY SKILLS

Through our Career Excellence Hubs you will develop skills for life, which will help you gain employment once you have completed your study programme. We will help you to gain both hard skills, and soft skills, which employers have highlighted as keys skills in this sector, but what exactly are they?

Hard skills are the measurable ones that you list on your CV, and that you may hold certification in. Whereas soft skills are interpersonal, and help you to develop your character, which will benefit you in building relationships with co-workers and customers.

Alongside input from our Career Excellence Hub employer partners and advisory boards, we as a college have invested in powerful Labour Market Intelligence tools

to further guarantee that our curriculum meets employer need. Not only do we use all this information to inform our curriculum design, but it is also used to inform our skills and individual development programme called ID that's purpose is to accelerate your progress towards your career goal and next steps by equipping you with the complete package of knowledge, experiences and skills.

**We have built them into your study programme, meaning you will learn and develop these skills with us:**

## Hard Skills

- Qualifications recognised globally
- Safeguarding and health and safety skills
- Analytical Skills
- Research Skills
- Literacy and numeracy skills

## Soft Skills

- Problem Solving
- Teamwork
- Independence and time management
- Resilience
- Adoptability

English and maths are also a very important part of Sixth Form, here are some of the key skills they provide:

## English

- Speaking, listening and communication skills
- Writing personal statements
- Interview skills
- Essay writing
- Proof reading
- Referencing
- Academic reading and writing

## Maths

- Most Universities require a grade 4 at GCSE maths.
- Many academic subjects make use of statistics to support theories. The critical evaluation of statistics can lead to new insights.
- The ability to analyse and interpret data is vital to many jobs.
- Maths is used in all businesses across the world, including calculating profit and loss.

# PROGRESSION ROUTES

Once you've completed your course, there are several options for you to further develop your skills and knowledge...

If you completed a Level 1, or Level 2 course, you can continue to progress to the next level course. Click here to go back to our course page, and discover the relevant course route, for you.

We also offer a T Level programmes, which is a mixture of college and work-based learning designed to give you the technical skills and workplace experience to kick-start your career.

We offer them in a range of subjects, which will allow you to further specialise in a specific area.

An apprenticeship is a fantastic way of entering your chosen industry. Not only will you get the opportunity to get your foot in the door with a local or national company, you will also be able to earn while you learn.

Through apprenticeships you will work closely with an experienced professional to develop and practice your skills, all whilst receiving the benefits that being a student brings.

We have several degree options on offer at UCW, which will allow you to further develop your knowledge. UCW is rated as Gold in the Teaching Excellence and Student Outcomes Framework, meaning the teaching, learning and opportunities we provide are of the highest quality in Britain.

There are several degree options available, which could lead you on to a career. You can find the full UCW course list, here.
